Pedro Aguiar

Nova Lima - MG (Brazil)

(31) 98720-7828 · pedro.asvgouvea@gmail.com · linkedin.com/in/pedroaguiargouvea · github.com/pedro-aguiarsv

Growth/Marketing and Business Operations professional, currently focused on subscriber retention through email marketing, automation, and data analysis. Prior background in ROAS-driven prioritization, KPI structuring, and process automation via Node.js and APIs. Pursuing complementary technical training in front-end development, combining analytical growth thinking with the ability to build his own products. Award-winner in national math competitions.

PROFESSIONAL EXPERIENCE

Costa Ventures (Publisher) — Retention Coordinator

Jan 2026 — Present

- Retention strategy: email marketing and CRM initiatives aimed at reducing churn and increasing subscriber LTV.
- Testing and optimization: A/B tests on campaigns and flows, optimizing for open, click, and conversion rates.
- Flow automation: onboarding, reactivation, and win-back, scaling operations without proportional manual effort.
- Data analysis: tracking retention KPIs (churn, reactivation, LTV) to inform prioritization.
- Subscriber base segmentation for personalized communication.

Costa Ventures (Publisher) — Operations Coordinator

Nov 2025 — Jan 2026

- Backlog management and prioritization: led operational routine focusing on high-ROAS-impact demands.
- Technical leadership: oversaw Node.js and API automations, bridging Business and IT.

Costa Ventures (Publisher) — Operations Analyst

Sep 2024 — Nov 2025

- Redesigned internal workflows and built performance dashboards to support decision-making.
- Identified operational bottlenecks and implemented financial efficiency solutions.

Costa Ventures (Publisher) — Operations Management Intern

May 2024 — Sep 2024

- Daily KPI monitoring and support for financial process execution.
- Helped automate manual tasks and develop new workflows.

IBMEX Consultoria Júnior — Business Consultant

Jul 2023 — Apr 2024

- Active prospecting and pipeline management via CRM (Moskit); customized business proposals, increasing conversion.

Best Brownie — Owner / Manager

Aug 2017 — Dec 2021

- End-to-end management of a small business: cash flow, inventory, and market analysis, sustaining operations for 4 years.

TECHNICAL PROJECTS

GitHub: github.com/pedro-aguiarsv

(In)finitudes infinitudes.com.br
Editorial portal for a real cultural project. Astro + TypeScript, live in production.

alertas
Automation (Python + GitHub Actions) cross-referencing ClickHouse and Plausible Analytics data, sending Discord alerts for sites with low revenue performance.

studio-lumen / clinica-bellevie
High-conversion landing pages (React/Vite and HTML/CSS/JS).
